

Axium DX8000 Portable

The portable payment terminal for more flexibility

The Axium DX8000 Portable offers an unrivalled payment experience, combining maximum connectivity and performance. The Android operating system and large touchscreen, combined with long battery life, make the Axium DX8000 Portable a practical and reliable mobile terminal for accepting payments wherever you are.

Accept all common payment methods, including debit and credit cards, mobile payment solutions, contactless payments, and e-vouchers (meal vouchers, eco-vouchers, gift vouchers).

Enjoy a stable, uninterrupted connection in-store, outdoors, or on the go, thanks to the smart feature that automatically switches between Wi-Fi and 4G depending on the strongest available signal.

Features such as Dynamic Currency Conversion (DCC), among many others, make the Axium DX8000 Portable a major asset for your business.

Practical design for greater mobility

Modern terminal with Android functionality

- Flexible use thanks to 4G or Wi-Fi and an integrated printer
- Latest technology for optimised payment processes
- Fast payment thanks to contactless function
- Latest PCI PTS 6.x security standard

Contactless

Mobile payments

Maximum security
