

Get started with your miniPOS Cube

How to install Tap on Mobile on your miniPOS Cube

Before you begin

-  Charge your miniPOS Cube with the supplied charging cable before first use.
-  To switch on the device, press and hold the  button on the right-hand side for approximately 3 seconds.
-  Your miniPOS Cube comes with a built-in SIM card and is ready to use immediately. For a faster and more stable connection, we recommend connecting the device to your Wi-Fi network.

Registration via the Online Portal (PC or laptop)

After ordering your miniPOS Cube and successfully signing your contract, you will receive a welcome email from no-reply@softpos.eu.

- Click "Confirm Registration" to activate your account.
- Enter your email address and VAT/UID number (if requested).
- Create a password and complete the registration by clicking "Register".

Install the Worldline Tap on Mobile app

Download the Worldline Tap on Mobile app from the Google Play Store onto your miniPOS Cube.

Note:

While using the Tap on Mobile app, your miniPOS Cube functions as a payment terminal. During installation, you will be asked to grant certain permissions. These permissions are required to secure payment transactions in accordance with Payment Scheme and PCI SSC (Payment Card Industry) requirements.

Register your device

To register your miniPOS Cube, please follow the instructions on our get started page. There you will find a step-by-step guide explaining how to link your device to your Tap on Mobile account, together with additional information to help you set up and use your terminal.
