

Stay ahead of the curve with Worldline

Did you know? 60% of e-commerce purchases and 20% of those in face-to-face commerce will be done through instant account-to-account transfers by 2030.

Bizum is an account-to-account instant payment solution. It's one of the utmost promising payment technologies currently on the market and Spain's most original, innovative and easy-to-use mobile payment method. Thanks to Worldline you can now offer Bizum to your clients.

Benefits for your eCommerce business

- **Offer payment methods in line with PSD2 (with strong customer authentication SCA):** ensuring your business is secure without repudiation. Payment guaranteed even in cases of returns, disputes and fraud, equivalent to current banking solutions
- Bring to your clients a trusted solution with already **+700,000 transactions made and +23,700 merchants accepting it.**
- **Access settlement options** «online» in main account or «remitted» in intermediate account
- **Benefit from a better conversion rate** in the purchase process given that account-to-account payments are steadily increasing across the globe
- Access alternative payment methods easily with major acceptance among users, **+18 million active accounts, representing +38% of Spanish population.**
