

# Your gateway to everywhere

**Market Infrastructures - here we come!**

**WL SWIFT Service Bureau**

# Worldline Messaging & Connectivity

Today's worldwide backbone of interbank communication is based on the SWIFT network, ensuring the exchange of financial messages worth trillions of Euros between around 11,000 institutions. Having a reliable partner for your messaging and connectivity requirements opens the door to a rich correspondent banking network and market infrastructures.

## The challenge

### Compliance & Security

Need of handling all security requirements on your own by proving compliancy with the **SWIFT Customer Security Programme (CSP)**.

Increased levels of business continuity required by the ECB regulations on **Systematically Important Payment System requirements (SIPS)**.

### Demanding market

The market has never been changing so fast like in the past couple of years demanding market participants to **constantly adapt and actively contribute to new developments** result in deployment of new protocols, new services and a completely new way of working. The market demands services that are instant, frictionless, convenient, highly secure and always available.

### Legacy platforms & lack of experts

**Existing end of life software** is often not supporting today's market demands and requires resource-intensive maintenance and specific knowledge., which is very rare nowadays. In times of instant, **scalability limitations** in transaction volumes of legacy platforms result in competitive disadvantage. Reaching the security requirements for the **annual SWIFT certification** with old systems results in high costs and resource allocation.

**Overcome the challenges with our fully CSP-compliant and scalable Messaging and Connectivity Service. The solution is suited for financial institutions and corporates of all types and sizes, including tier 1 banks. We offer a complete solution with a range of value-added services ensuring you reach the full potential of the SWIFT Network and beyond.**

## The solution

**Reach your peace of mind** by not taking care of fulfilling **security requirements** as we are providing the **highest level of security and compliancy with SWIFT CSP**. Also supporting you with the obligatory reporting towards SWIFTNet.

**Strengthen your position on the market** and be the **first mover** when it comes to new developments like SWIFT GO or Pre-validation service. All **mandatory changes** are done by us for free and we always stay on track for **new services** which will enrich our service portfolio.

**Minimise operational risk (and costs)** with our state of the art infrastructure and first class SWIFT connectivity. Our team of over 30 SWIFT experts supports you 24/7/365. Overall increasing business continuity through flexibility.

With our SIP2022 certified WL SWIFT Service Bureau you will benefit from cost-efficiency and the highest SWIFT CSP compliant security standards. As well as minimizing operational risk through exceptional flexibility and individual adjustment.
